Custom Android, iOS and cross-platform apps built around what your business actually needs them to do.

SERVICES & PRICING

Android app — KES 76,000

A custom Android app built from scratch around exactly what your business needs it to do, not a generic template. Worth it when your customers are mostly on Android and you need something a website alone can't do, like offline access or push notifications.

iOS app — KES 86,000

A custom iPhone and iPad app designed and built around your specific requirements, ready for the App Store. Worth it when your audience leans iOS or you need device features (camera, notifications, biometrics) a website can't offer.

Cross-platform app (Android & iOS) — KES 106,000

One app built once from a single codebase and shipped to both Android and iOS, instead of paying for two separate builds. The practical choice when you need to reach both audiences without doubling the cost and the ongoing maintenance.

PAYMENT TERMS

- Orders totalling KES 10,000 or less are paid in full upfront to book the work.
- Orders above KES 10,000: 50% deposit to start, the balance is due on completion.
- Prices are fixed. Domain renewals, hosting upgrades, premium database services, paid third-party APIs and similar ongoing charges are not included.
- Typical delivery is 7–14 working days once requirements and any needed content are confirmed, unless noted otherwise per service.
